## TD Duct – Main Unit

### Features;

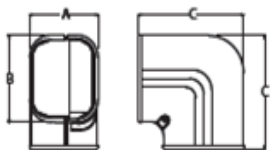

- Made from high grade PolyVinyl Chloride (PVC) resin which has excellent durability and weather resistance.
- Slim, square design and various fittings will make any installation lovely and looks clean and professional.

### Notes for usage;

- As the ducts do not have water proof, contact point on the wall, joint, screw hole etc... should be filled by caulking compound or putty.
- Not able to use where surface temperature beyond the range -20 to 60°C.
